Europe Tackles Information Chaos

Prague, September 22–23, 2022

#CIC2022 #CEDMO

Technology and AI

When:	22rd September 2022
Time:	2PM – 6PM
Location:	TBD, Prague 1, City Center

This panel covers the technological aspects of tackling disinformation, with a particular focus on artificial intelligence and tools to support (and automate part of) fact-checkers' work. We will check on current trends and open challenges in the domain of disinformation tackling. We will be introducing two new European projects and will delve into some examples of R&D presently done at CEDMO. The discussion on fact-checker support tools will be accompanied by demonstrations of three existing ones: Truly media platform, WeVerify plugin and Gerulata Juno, and will also focus on current practical challenges faced by fact-checkers in their daily work.

Programme:

Time	Technology and AI	Moderators: Jakub Šimko, Róbert Móro
